CRUISE REPORT 72-KB-20 DIVING RECERTIFICATION

Prepared by Daniel W. Gotshall

Vessel: KELP BASS

Dates: August 29-30, 1972

Locality: Santa Catalina Island

Purpose: Annual recertification of Department divers.

Operations: Divers went through recertification tests on August 29. Water conditions were ideal, with a surface temperature of 70°F and underwater visibility exceeding 50 feet.

On August 30, the divers practiced survey-type dives.

The planned kelp transplant was cancelled because of poor water conditions at Palos Verdes.

Personnel: Marco Mazarovich, Vessel Captain
Diving Safety Board
Department Divers
Jim Stewart, S.I.O. - August 29
Dr. Anthony Sotelo, M.D. - August 29
